ENGAGING COMPLEX FAMILY SYSTEMS FROM A CULTURALLY RESPECTFUL LENS

Join together with home visiting supervisors and providers from Thurston, Grays Harbor, Mason, Lewis and Pacific counties for our first annual Summer Home Visiting Institute. We will begin our time by redefining culture as based in internal values not external labels. In this keynote training participants will be asked to examine our understanding of our cultural self in relationship to the families we serve and to increase engagement from a diverse lens – how can providers respectfully discuss issues of culture, privilege, and discrimination to empower not exclude families? As our service delivery is based on relationships, we will look at how relationships and culture are intertwined. Additionally, special attention will be offered to supporting families with complex histories that can serve as a barrier to engagement.

If you plan to attend, register by clicking [here](#), or go to [myesd.org](#), Classes and Workshops, keyword search “home visiting.” Registration closes June 13, 2016.

This is a FREE event. Lunch will be provided.
