

170-297 School Age WAC:

Regulatory authority and facility environment on school premises

In response to the legislation that passed The Early Start Act (House Bill 1491), school-age programs that operate on public and private school premises, will no longer be inspected for regulations that apply to the physical facility environment.

DEL has defined the “physical facility environment” as all of the physical structures maintained within or attached to the structural building and premises. DEL has recognized the following School Age WACs are already addressed in law and statues that govern schools. Subsequently, DEL will no longer enforce the following WACs under chapter 170-297 for programs that operate directly on public or private school premises:
